Who was the third king of Israel who was called the wisest person to ever live? (Solomon)

Who was Solomon's Father? (David)

God told Solomon he could have anything he wanted. What did Solomon ask for? (Wisdom) What would you ask for if God told you that you could have any one thing you wanted?

What is wisdom? Spend some time teasing out the difference between wisdom and knowledge.

Find or come up with some "which doesn't belong" scenarios (e.g. a basketball doesn't belong with a hockey stick, hockey puck, and skate). Talk about how wisdom is needed to discern how things work and where things belong.
